

Dear Sir or Madam:

If you have already retained an attorney for this matter, please disregard this brochure.

A recent review of the arrest records from the County Sheriff's Department suggests that you may need the advice of an attorney. As you face this most unfortunate experience, allow me to introduce myself and my law firm to offer you the assistance and support of an attorney who handles criminal defense cases in the state of Florida, especially in Hillsborough and Pinellas Counties.

I have handled cases similar to yours dealing with felony and misdemeanor charges all the way through trial. Many cases are handled without going to trial but if your case needs to go trial I have experience in conducting bench and jury trials in circuit and county court. In order to help my clients, I will meet with you, understand your side of the story, once retained, I will review the state's case against you and explain your rights. I will then speak with state prosecutors - sometimes after hours - to explain your situation and defend your rights because you have been arrested and accused of a crime in the State of Florida.

Whether you have been charged with a felony or a misdemeanor, having an attorney at the beginning of your case, just days after your arrest, is extremely important. I say this whether it is myself or another experienced attorney representing you. Having an attorney protecting your Constitutional rights, reviewing the criminal report affidavit, and speaking with the prosecution far in advance of your court date are just some of the ways I have represented my clients in the past.

I realize that you are probably both scared and confused about not only the charges against you, but also the legal system as a whole. I am familiar and comfortable with handling alleged charges in the criminal justice system; I practice in many jurisdictions in the State of Florida including Hillsborough and Pinellas Counties in the field of criminal defense. I have a positive working relationship with the State Attorney's Office and the Court, and I strive to offer you the best representation possible when you need it the most.

I look forward to speaking with you about your case free of charge. Please feel free to call me at the office at telephone number, **813-251-0700** or my after-hours number at **813-391-1006** to set up a free consultation. I urge you not to delay in finding a criminal defense attorney. Most people do not realize that a criminal defense attorney can make all the difference in the outcome of a case.

I look forward to representing you when you need answers the most. Call now for free no obligation consultation.

Sincerely,

James R. Amarosa II  
Attorney and Counselor at Law
